Arya - Your ability communicate status and willingness to go above and beyond to ensure completion of tasks and stories have helped the data vault hydration for wave 0/wave1 in many ways. Recently, you were tasked with running the scrum for the Ingestion team and represent ingestion in the scrum of scrums . I would like to commend your willingness to take up additional challenge and help organize & stream line the agile process short period of time is much appreciated.

You have been a rock to snowflake process in AUM reporting project working with vendor, QA team and development team. You have bridged knowledge gaps, identified shortcomings in developement and brought QA team upto speed when they first started.

I highly appreciate collaborating and working with you.

You made a difference

Recognized for "You made a difference"

Arya has proved to be a great asset to our team. Quick learner, has shown clear thought process in design and development of pipelines. Taking the ownership of the DI scrum, Arya has shown improvement in its execution, communicating crystal clear the status of the workstream to a larger audience in the Scrum of scrums. Her willingness to take up additional responsibilities and to excel is commendable! Arya, thank you for all your hard work and commitment! Keep it up!!

It was first sprint in which QA team started executing test cases.
Everyone helped in understanding the flow and initial checks.
Talking about Arya, she is just a ping away.
Thank you for tunneling into the issue we faced during validations. Your investigation skills are truly remarkable which takes us towards the root cause within short time.
You explain product in very easy way. This helps everyone to visualize and understand in better way.

Best and rare quality about you is even though you are a developer, you respect QA views to look at the things and observations.

Thank you so much Arya for helping QA team beyond your limits ..!!

Hi Arya

Thanks for your contribution on AUM - DI development for flex share work, your commitment to getting the development done is admirable and seeing you work late nights and getting multiple peer review to make your delivery error free is admirable. One more job well done - Keep doing what you do the best.

Hi Arya

Thanks for all the hard work that you had put together in Adapting Alteryx tool and also integrating existing Snowflake routines within Alteryx - these steps had not only helped us move forward quick on Flex share development work, but also helped avoid lot of rework and early adoption of Alteryx tool.

We also appreciate your help and support that you had provided to QA team in getting them upto speed on all the design/work items.

Hi Arya
I want to Thank You for Guiding me through entire project and environment helping me with all the components starting from small document to an end code. I cant say a single thing that I got without your supervision from the day1 Joined AUM.

Thanks Much
